DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species I, Figure 1, 9-11

Species II, Figure 2, 9-11

Species III, Figure 3, 9-11

Species IV, Figure 4, 9-11

Species V, Figure 5, 9-11

Species VI, Figure 6, 9-11

Species VII, Figure 7, 9-11

Species VIII, Figures 8-11

Species IX, Figure 12

Species X, Figure 13

Species XI, Figure 14

Species XII, Figure 15-16

Species XIII, Figure 17

Species XIV, Figure 18

Species XV, Figure 19-20

Species XVI, Figures 21-25B

Species XVII, Figure 26-27

Species XVIII, Figure 28

Species XIX, Figure 29

Species XX, Figure 30

Species XXI, Figure 31

Species XXII, Figure 32-33

Species XXIII, Figure 34-35

Species XXIV, Figure 36-37

Species XXV, Figure 38-39

Species XXVI, Figure 40

Species XXVII, Figure 41

Species XXVIII, Figure 42

Species XXIX, Figure 43

Species XXX, Figure 44

Species XXXI, Figure 45-46

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 3746

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Claim 2: Figures 3-7

Claim 3: Figures 3-7

Claim 4: Figures 3-7

Claim 5: Figures 3,5,6,7

Claim 6: Figure 4

Claim 7: Figures 3-7

Claim 9: Figure 6

Claim 10: Figure 7

Since applicant's terminology is not consistent between the preamble and the body of the claim, it is impossible to determine which claims belong to which species. Applicant is advised to make sure terminology is consistent and identify the claims to the corresponding elected species. For Example, referring to claim 3, the preamble stipulates a gas turbine combustor where the body of the claim is drawn to the elements of a turbine (bypass duct) and not the combustor.

The following claim(s) are generic: claim 1.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species all

appear to be drawn to a generic combustor where the combustor of each species contain characteristics which may be considered distinct from one another.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
